If you think good design is expensive, you should look at the cost of bad design.

— Dr. Ralf Speth

UI/UX DESIGN

UX design refers to user experience design, while UI design stands for user interface design. Both of these are crucial to an IT product and need to work closely together.

• UI/UX Graphic

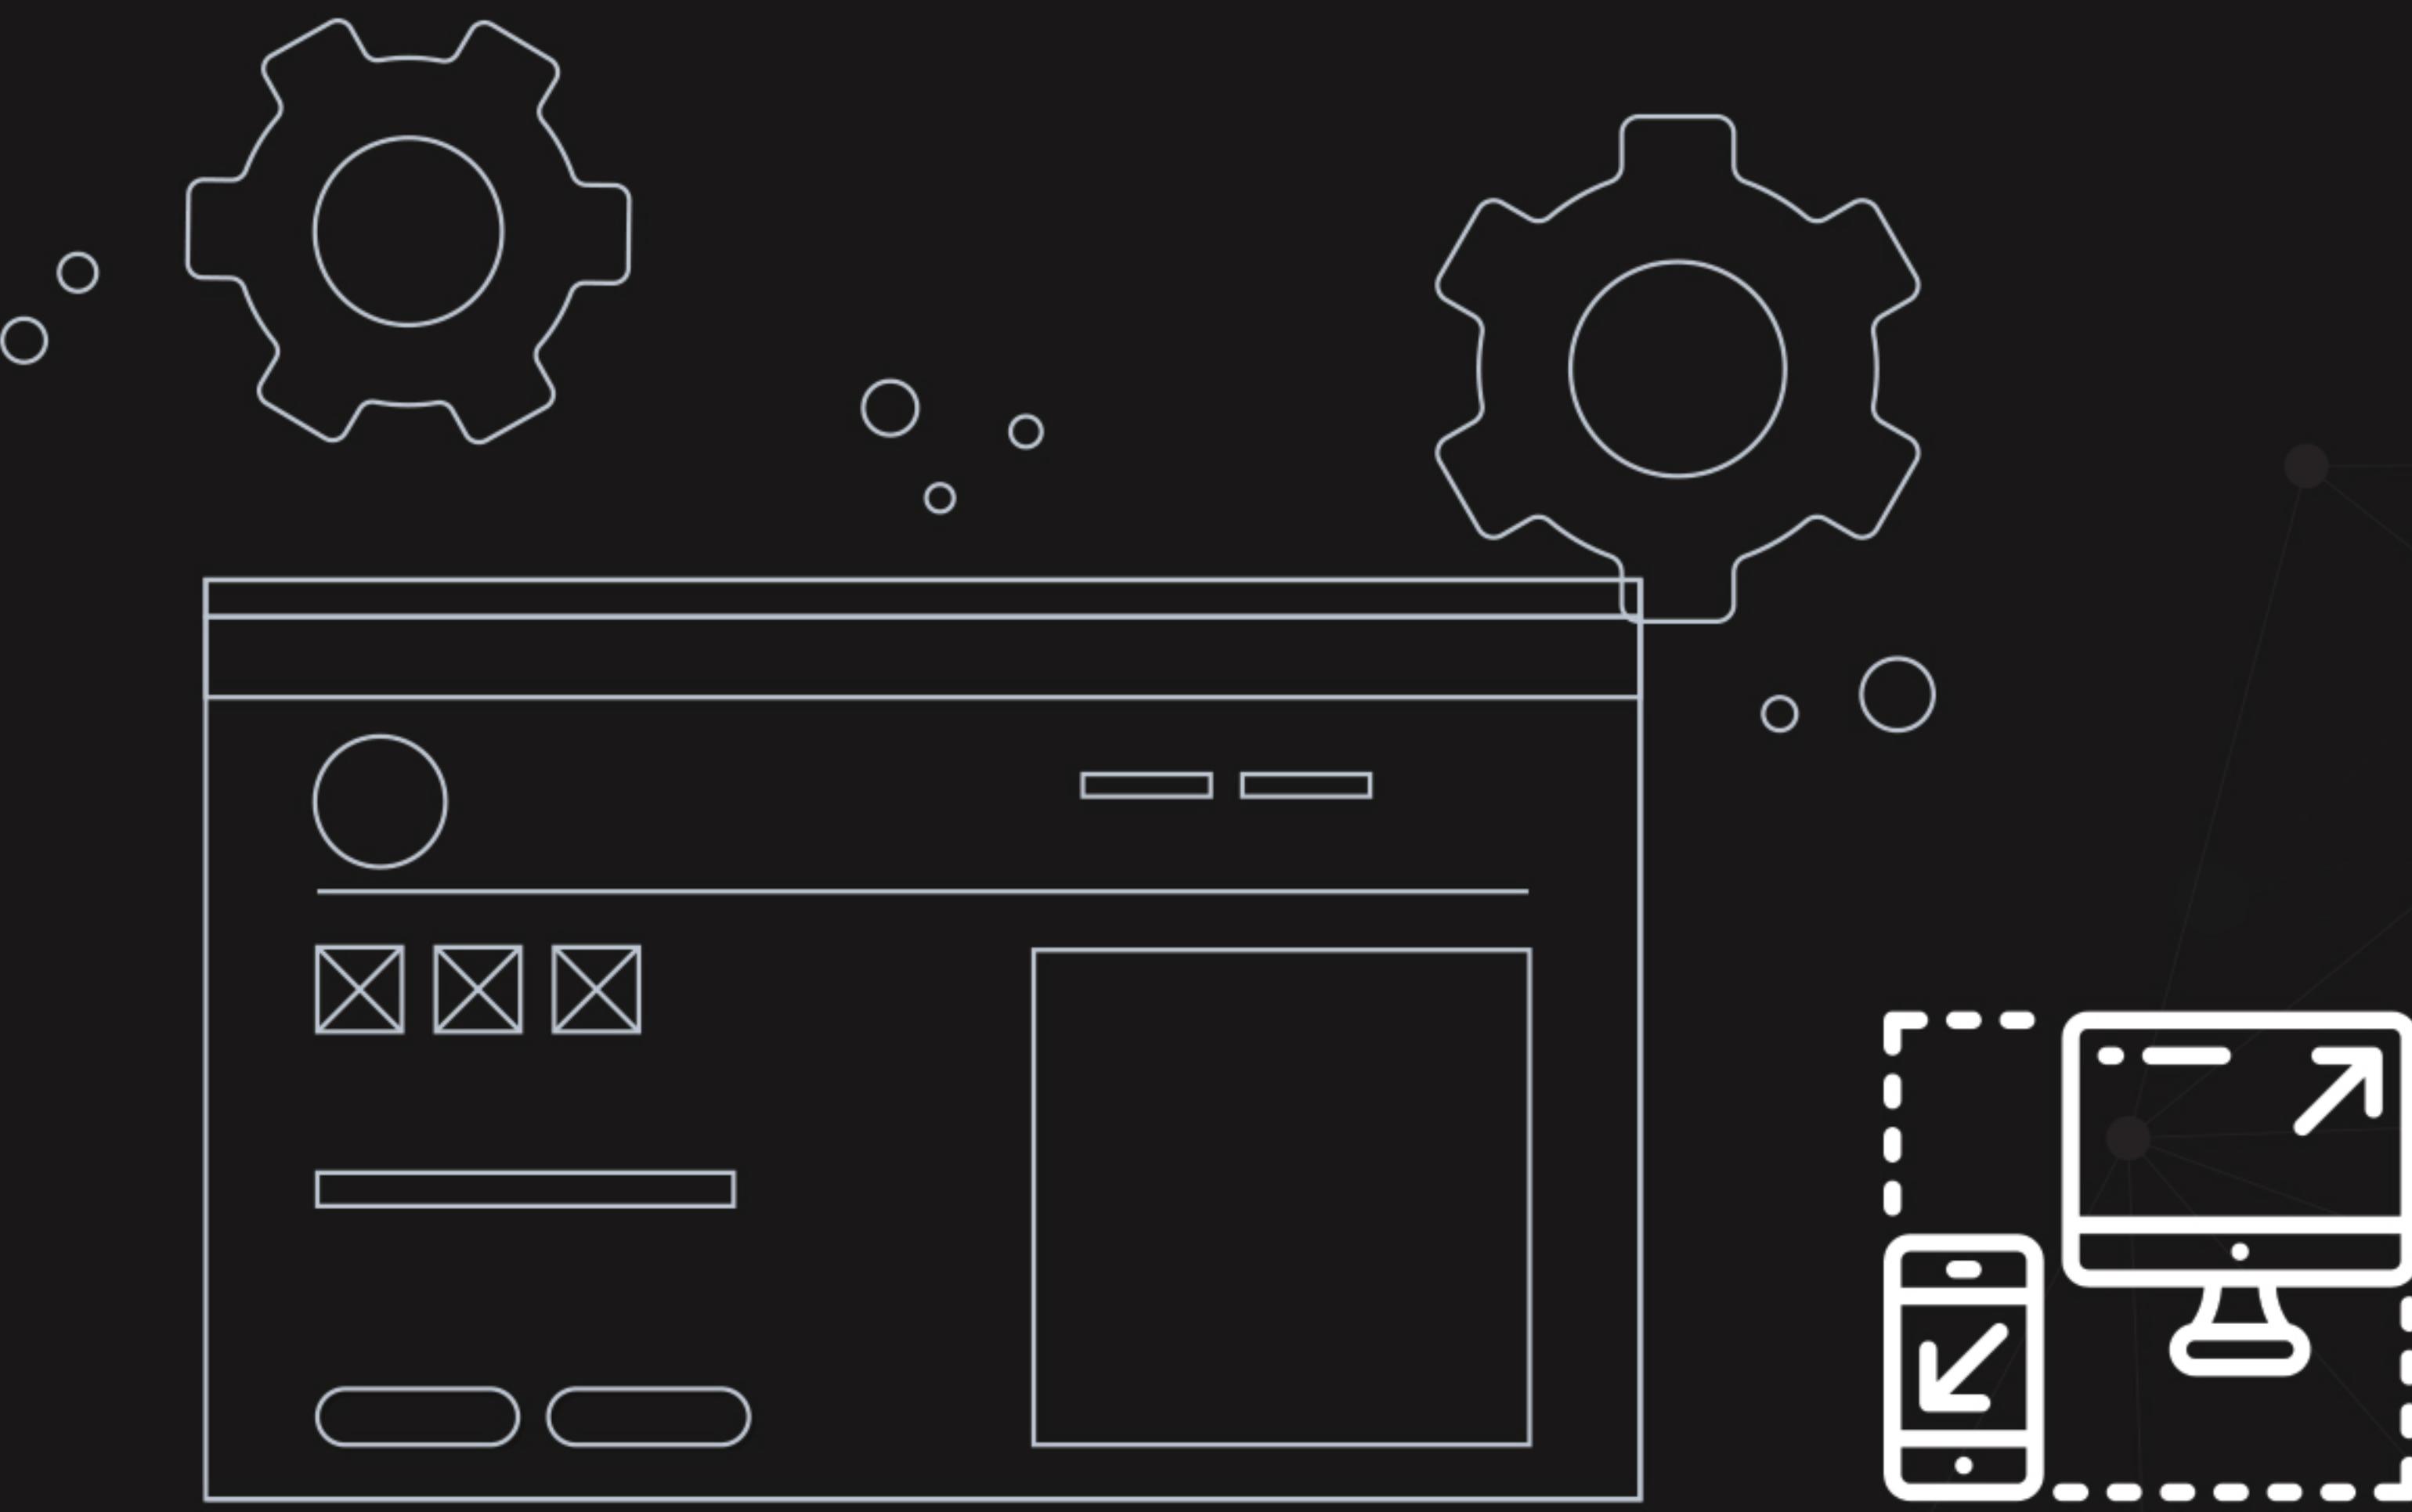

UX design. The word “design” is associated with creativity, colors and graphics, when really its true definition lies in functionality, as well as the process behind making products.

Simplicity is the ultimate sophistication

– Leonardo da Vinci

WEBDESIGN

Web site design needs to clearly communicate with the audience what I do, why I do it, and who I do it for. The most essential point for the website is within 10 seconds of the landing website If visitors determine what company does? through design then the design is perfect.

“Simplicity, carried to the extreme,
becomes elegance.”

— Jon Franklin

GRAPHIC DESIGN

Design that's to be experienced in an instant is the easiest to recognize. Designers arrange type, form, and image on posters, advertisements, packages, and other printed matter, as well as information visualizations and graphics for newspapers and magazines.

Thank you!

I sincerely appreciate that I've had this opportunity to present to you.
